- Relevant Courses: Data Visualization, Fundamentals/Advanced Data Engineering, Applied/Advanced Machine Learning, Capstone, Python for Data Science, Data Ethics, Privacy and Humans

Willamette University/ College of Arts and Sciences | Salem, OR

Aug 2022 - May 2026

- Pursuing 3+1 BS/MS Data Science Dual Degree / Minor in Economics. (GPA: 3.99)
- Honors: Phi Beta Kappa, Summa Cum Laude, Academic Honors every semester from Fall 2022 through Spring 2026
- Relevant Courses: Managing with AI, Intro to Data Science with R, Inferential Statistics with R, Intro to Programming with Python, Math for Data Science, Research in Data Science, Statistical Engineering, Multivariable Calculus

SKILLS

- Japanese Fluency, Python, SQL, R, Microsoft Office, Google Workspace, Generative AI tools (Claude ChatGPT), Open AI Playground, Shiny, Grafana, Apache Airflow, dbt, Tableau, Power BI (familiar), Salesforce, Looker, Process Documentation

PROFESSIONAL EXPERIENCE

Operation Intern & Enrollment Operation Intern, Willamette University Admissions Office | Salem, OR

Sep 2023 - Present

- Managed data stewardship for the CAS Slate CRM database, including executing daily queries, consolidating records, and performing over 800 GPA calculation checks
- Surfaced enrollment patterns including deposit activity links to hold timing, GPA/curriculum correlations to hold reasons, and region-specific yield drop-offs by conducting EDA, descriptive, and correlation analysis in R and SQL (Slate) across a formally structured project with a proposal, WBS, RACI chart, and stakeholder review checkpoints.
- Improved data retrieval processes and increased system flexibility by transforming existing queries into configurable joins using SQL, contributing to a large-scale data migration project
- Preserved 8 years of institutional history by migrating 2,000+ law school applications (2017–2025) into the graduate database through a cross-database join, supporting data and document retention compliance

Sales Operations Analyst Intern, OpenSesame | Remote

June 2025 - April 2026

- Developed a leadership-facing variance dashboard in Excel for the 2026 funnel model with dynamic formulas and interactive filters, reducing reporting time by 2hrs/week and enabling real-time performance tracking for more informed executive decision-making
- Informed 2025 new-business forecasting by delivering four Time-in-Stage analyses (Opp→Close, MQL→SAL) covering 18 months, prototyping the modeling workflow in R Markdown
- Increased Salesforce account data accuracy by web-scraping Forbes' G2000 with Python (pandas, rapidfuzz) and fuzzy-matching 2,000 companies utilizing OpenAI API, correcting 2025 Fortune/G2000 status for territory planning
- Enabled real-time Partner team goal tracking by creating Looker dashboards using SQL to centralize KPIs for leadership reviews

DATA PROJECTS

Owner Product Lead, Willamette Applicant Trajectory (Capstone) | Salem, OR

May 2026 - Aug 2026

- Identified strongest predictors of a Willamette admit's eventual enrollment destination by engineering and testing 50+ features across clustering techniques, Multinomial Logistic Regression, SVM, and XGBoost classifiers for Willamette University's Admissions Office, addressing the gap in destination-targeted recruitment strategy.
- Delivered an ethics-compliant analytics pipeline by designing a normalized 7-table PostgreSQL schema and SQL ingestion/cleaning scripts to join Slate CRM applicant records with 3 years of National Student Clearinghouse enrollment data, stripping all PII and enabling the Admissions VP to test targeted outreach strategies against modeled enrollment predictions.

Sports Analytics Analyst, Willamette University Soccer Analytics (WUSA) | Salem, OR

Aug 2024 - Dec 2024

- Developed end-to-end data pipelines in R to collect, clean, and structure Willamette Men's soccer match data, enabling high-resolution analysis of team and opponent performance trends for the coaching staff
- Designed and deployed an interactive Shiny dashboard integrating season-long and opponent-level analytics, giving coaching staff real-time access to tactical insights throughout the season
